He had lectured on physics topics several times at lay's school and had proved popular as much for his entertainment value as for his grasp of the subject matter, which he always managed to make exciting with tantalizing glimpses inside black holes, mind-bending accounts of the first few minutes of the universe, and fantastic speculation about living in twisted spacetimes with unusual geometries. On one occasion he had introduced Feynman diagrams, which represented particles as "world lines" traversing a two-dimensional domain, one axis representing space and the other time. Mathematically and theoretically a particle going forward in time was indistinguishable from its antiparticle going backward in time, and Pernak had offered the staggering conjecture that there might be just one electron in the entire universe--repeating itself over and over by going forward as an electron and backward as a positron. "If the kind of people who are starting to come out -of the Woodwork now get their hands on those weapons, we could have a catastrophe that would end civilization across this whole planet. You've all seen what's happening back on Earth. Well, the same mentalities are here too, and they're panicking. We must keep enough of the Army together to stop anything like that if we have to." In a room two posts back, he had glimpsed a couple of kids who couldn't have been more than twelve probing carefully and with deep frowns of concentration inside the electronics of a piece of equipment that must have cost millions. The older Chironian with them just watched over their shoulders and offered occasional suggestions. It made sense, Driscoll thought. Treat them as if they're responsible, and they act responsibly; give them bits of cheap plastic to throw around, and they act like it's cheap plastic. Or maybe the Chironians just had good insurance on their equipment..switching off the TV and closing the doors on the entertainment center while she finished writing the..committee. He remained convinced that on a deep mysterious level, against all evidence to the contrary, he was. "I 'got the last one," Colman reminded them. Somehow the enthusiasm had gone out of the party.
